Series I-D. Minutes of Stated Meetings and related documents, 1780-1944

Administrative Information

Scope and Content

The ten volumes in this sub-series contain the minutes of meetings of the American Academy, 1780-1944, and other items documenting the administrative history of the Academy, including election of Fellows and officers, finances, research projects, meetings, and governance. Specific related documents include membership lists, copies of the Academy charter (1780), lists and occasionally transcripts of letters received, notices of deaths of members, gifts to the Academy, financial statements (presented at annual meetings), and reports of committees.

Archival Arrangement

These records are arranged in chronological order.

Historical Note

Transcribed text of meeting minutes is available, almost always in full, in the Academy's *Proceedings* (available through JSTOR), after its establishment as an Academy serial publication in 1848. For minutes of meetings prior to 1848, researchers should consult the manuscript volumes. The texts of papers presented at meetings do not generally appear in the minutes, but the text of selected papers is available in the *Memoirs* or *Proceedings*, both of which are available through JSTOR. Citations to these volumes occasionally refer to them as "Records of the American Academy of Arts and Sciences." More detailed descriptions of the contents of each volume will be available as the Academy's Archives Initiative progresses.

Notes: Names, titles, and location descriptions in this guide were transcribed exactly as they were written in the original volumes. Volumes 1-4 are handwritten; Volumes 5-10 are typewritten.

Volume 1. Minutes of Stated Meetings and Related Documents, 1780-1821

Description: This volume consists of several previously separate sections bound together in the late nineteenth century. The original pagination for each section was retained. The volume includes a copy of the Act of the General Court establishing the Academy in 1780, a copy of the original statutes, and membership lists for the period 1785-1791. The volume includes minutes of meetings from 1780 to 1821, and minutes of the Council for the years 1781-1797.

Among the important administrative actions recorded in the volume are: the first election of officers, 30 August 1780 (James Bowdoin elected President); an outline of the subject categories identified as appropriate for study by the Academy, 29 January 1781; arrangements for the publication of the first volume of *Memoirs*; James Bowdoin's legacy of 1,200 books for the Academy library; a donation by Benjamin Thompson, Count Rumford, in 1796; Noah Webster's donation of royalties from one of his books; the division of the Academy's membership into three classes, 1815; and a contract with the Boston Athenaeum to store the Academy's library and cabinet of minerals, 1817-1818.
