

List of Figures

	Frontispiece	ii
	Map of Delaware Basin	xiv
	Map of Water Gap Region	xv
	Woodcut — Early Transport on Delaware	44
4-1	The Same Net Benefit Stream Plotted on Different Scales	160
5-1	The Main Water Cycle	173
5-2	Ground Water Under Virgin Conditions	183
5-3	Equilibrium Water Table with Well	184
5-4	Effect of Well on Surface Flow	186
5-5	Subdivision of Flow	189
5-6	Effects of Different Reservoir Operation Rules	190
5-7	Water Demand and Supply as Given by the DRBC Staff Report of 1971	200
5-8	Dissolved Oxygen for Different River Flows	202
6-1	A Model Basin—Perfectly Circular	223
6-2	Basin Project Storm	225
6-3	Hydrograph for a Five-Hour Storm at the Edge of a Circular Basin	228
6-4	Hydrograph for a Flashy Basin Superimposed on the Hydrograph from Fig. 6-3	229
6-5	The Drainage Basin of Fig. 6-1 Embedded in a Larger Basin, and a Dam Placed Where the Gauging Station Was	231
6-6	A Dam Delays the Flow	232
6-7	Damage-Frequency Curve	234
6A-1	Progress of Storm Runoff	248
6A-2	Approximate Hydrograph for Tocks Dam Site	250
6B-1	Discharge-Frequency Curve for the Lehigh River at Bethlehem, Pa.	251

x *List of Figures*

6B-2	Typical Stage-Discharge Curve	253
6B-3	Typical Stage-Damage Curve	253
7-1	Total Electric Service Area	259
7-2	Projected Peak Electric Demand and Proposed Installed Capacity	261
7-3	Published and Modified Projections for Peak Electricity Demand	265
7-4	Power Plants, 1971 Master Siting Study	266
7-5	Power Plants, 1974 Master Siting Study	267
7-6	Projections of Average Consumptive Water Use by Electric Generating Plants Proposed in the Delaware Basin	280
7-7	Sketch of Pumped-Storage Scheme and Pumping- Generating Cycle	283
7-8	Revised Pumped-Storage Plan, 1971	285
8-1	Temperature in a One-Dimensional Model	302
8-2	Temperature in a Two-Dimensional Model	303
8-3	Vertical Reservoir Slices Used in LAKECO	312
9-1	Phosphorus Input vs. Mean Depth for a Number of Lakes Etching — Kittatinny Hotel	336 362
10-1	Beach Scene Showing an Estimated 3,000 People	370
10-2	Campsites Compared to Total Park Area	371
10-3	Proposed Freeways in Sussex and Warren Counties	373
10-4	Conceptual Network for Public Transportation	379
10B-1	Typical Bus Routes, Showing Superposition of Routes on Internal Road	396
10B-2	Parking Lot, Showing General Arrangement to Separate Auto, Foot, and Bus Traffic	397
10B-3	Morning and Evening Parking Lot Operation	398
