AMERICAN ACADEMY OF ARTS AND SCIENCES ARCHIVES

Record Group I-B-1: General records. Letterbooks. Bound letterbooks.
Volume 22, 1929-1935

ADMINISTRATIVE INFORMATION

Historical Note

The Academy has received letters, announcements, and other forms of correspondence since the founding in 1780. All such correspondence was the responsibility of the Corresponding Secretary, one of the original officers of the Academy. Beginning sometime in the late 1800s, incoming letters were pasted into bound scrapbooks, which the Academy referred to as “letterbooks.” This practice continued until 1988, when staff began saving correspondence in folders.

For the time period covered by Volume 22, the Presidents of the Academy were Edwin Bidwell Wilson (1927-1931), Jeremiah Denis Matthias Ford (1931-1933), and George Howard Parker (1933-1935). The Corresponding Secretary was Tenney Lombard Davis.

Scope and Content

The series of letterbooks in its entirety includes letters from newly-elected Fellows, formally accepting their elections; communications with other learned societies (especially, invitations to attend meetings or send representatives to official events, and offers to exchange publications); correspondence concerning gifts of books, maps, and natural history specimens; and inquiries from members and non-members regarding the submission and publication of articles.

Volume 22 contains letters, invitations, invitations, and circulars received by the American Academy of Arts and Sciences during 1929-1935. Most documents are in the form of incoming correspondences from members acknowledging their election to the Academy, including Robert Frost. Also included in the letterbook are some invitations and select circulars from national and international societies and institutions. Of particular interest are documents surrounding the 700th anniversary of University of Toulouse and the 7th American Scientific Congress.

1 volume contained within 1.5 document cases.

Arrangement

The Academy has begun disbinding the volumes and conserving the individual letters, and will continue that practice until all letters are in stable condition. The letterbooks in Series I-B are arranged numerically by volume number. Within each volume, the original order of the pages has been retained. Generally the records are arranged in chronological order. Multiple documents on one support page are labeled \( a \) and \( b \). Documents on the reverse side are labeled \( v \).
